Choose age and ability appropriate infant/child kit items from the disaster supply kit list on the front page. Add other items according to the child's specific needs from the list below.

Pet Disaster Supply Kit

Pets are part of the family and need to have their own disaster supply kits including basic food, water, and shelter as well. All too often in disasters, pets are forgotten or left behind to fend for themselves. This is dangerous for the pets and for anyone they may encounter.

Remember your pets' unique needs when assembling their kits. Be aware that for health reasons, most human shelters will not allow animals, other than licensed service animals.
